

ENERGY POLICY

PT Lontar Papyrus Pulp & Paper Industry commits to conduct its business following the best energy management practices as stipulated in the Energy Management System even exceed them whenever possible.

We realize that our Pulp, Chemical and Tissue paper manufacturing operations consume energy continually. Therefore, we are committed to continual improvement in energy performance.

Our core policy is to implement effective energy management programs that support all operations and customer satisfaction while providing a safe and comfortable work environment.

We will therefore:

- Establish the energy objectives quantitative target. These objectives and targets will be reviewed and evaluated periodically to ensure their continuing suitability, adequacy, effectiveness and continual improvement in the system.
- Commit ourselves to provide information and necessary resources to achieve objectives and targets.
- Commit ourselves to comply with the legal requirements and other requirements to which the company subscribes which applicable to this system.
- Commit ourselves to identified our energy use and consumption in order to achieve reduction in energy use and cost
- Commit ourselves to do energy saving, purchase of energy efficient products and services, design for energy performance and operate clean technology
- Communicate this policy, train and educate our employees and contractors to create a culture of energy awareness and conservation.
- Cooperate and communicate openly to our neighbors, regulatory authorities and other professional groups to ensure timely, reasonable and cost effective solutions to the energy issues.

The management approves this policy and this policy is available to the public on request. Management, employees and visitors shall obey this policy.
