

ASIA PACIFIC FIBERS

Energy Management Policy

PT. Asia Pacific Fibers Tbk, Kaliwungu strives to use energy in the most efficient, cost-effective, and environmentally responsible manner possible.

Under this policy energy management will play a key role in support of our plan to maximise profitability, strengthen our competitive position, and provide customers with the highest quality products.

Our efforts in energy saving program will also support our commitment to our employees, the environment, and the communities in which we are a part.

PT. Asia Pacific Fibers Tbk, Kaliwungu will work towards continuously improving energy performance. We will implement specific energy conservation plans every year and will have significant achievement in the coming years.

Our objectives under this policy are the following:

- Maximise energy performance, reduce operating expenses and increase shareholder value by actively and responsibly managing energy consumption
- Demonstrate commitment to our community and leadership in our industry, by reducing environmental impacts associated with energy use

To achieve these objectives PT. Asia Pacific Fibers has committed to:

- Compliance with all energy management laws, regulations and Codes of Practice in existing operations, upgrades and new developments
- Operating practices that seek to minimise impacts through works and management practices, continual improvement, training and the use of new technology
- Improve employee awareness and encouraging the sharing of experiences and expertise
- Management review of energy objectives and targets
- Communication of this policy

This policy shall apply to all of PT Asia Pacific Fibers Tbk's facilities, business units, employees, and contractors in service to our business.
