

Implementation of **Green Business Innovation** at PT. Panasonic Manufacturing Indonesia as an effort of energy saving and emission reduction activities to contribute in reducing Global Warming Effect

CO2 Conservation

1 kWh electricity = 0.7168 kg CO2
1 Liter fuel = 2.71 kg CO2
1 m3 Gas = 2.29 kg CO2

Note :

$$\text{CO2/Unit Product} = \frac{\text{CO2 Emission}}{\text{Prod. Amount (Rp)}}$$
